Red-D-Arc Welderrentals®

When you're ready to weld.

Airgas®

Inverter Stick Welders and Multioperator Paks

- ES275i 275 amp DC CC welder
- ES275i 4Pak Multioperator with four 275 amp welding modules
- ES275i 6Pak Multioperator with six 275 amp welding modules
- ES275i 8Pak Multioperator with eight 275 amp welding modules

Inverter Multiprocess Welders and Multioperator Paks

- EX300 300 amp DC CC CV inverter welder/power source
- EX300 4Pak Multioperator with four 300 amp inverter welder/power sources
- EX300 6Pak Multioperator with six 300 amp welder/power sources
- EX360 350 amp DC CC CV inverter welder/power source
- EX360 4Pak Multioperator with four 350 amp inverter welder/power sources
- EX360 8Pak Multioperator with eight 350 amp welder/power sources

Multiprocess Welders and Multioperator Paks

- DC600 600 amp DC CC CV welder/power source
- DC600 4Pak Multioperator with four 600 amp welder/power sources
- DC600 6Pak Multioperator with six 600 amp welder/power sources
- DC1000 1000 amp DC CC CV welder/power source
- AC1200 1200 amp AC CC power source for NA-4 wirefeeders
- DC1500 1500 amp DC CC CV power source for LT-7 subarc tractors, and NA-3S and NA-5 automatic welding heads and controls

Wirefeeders, Automatic Welding Heads, Submerged Arc Tractors

- LN25 PRO-Extreme 325 amp voltage-sensing wirefeeder
- LT-7 Automatic wirefeeder tractor for Submerged-Arc welding
- NA-3S Automatic CC or CV DC MIG, Flux-Cored, Submerged-Arc welding
- NA-4 Automatic CC AC Submerged-Arc welding
- NA-5 Automatic CV DC MIG, Flux-Cored, Submerged-Arc welding

Welding and Power Solutions for Shipyards

Multioperator DC Converters

MX350 300 amp CC CV Multioperator DC Welding Module

Several MX350 welding modules can be powered by either an electric power-source or an engine-driven power source for DC positive stick, MIG, and SubArc welding processes. Modules are small and fully portable weighing only 59 pounds each. Results in a safer work area since a single, low voltage (60 volts DC) cable can provide power for several welding modules. Delivers high-performance welding control including Hot Start and Arc Force - right at the arc. Each module has a CC stick-soft and CC stick-crisp mode-switch for better control with E6010 and E7018 electrodes. Full remote-control capabilities.

Induction Heating Equipment

Weld Preheating and Stress Relieving Liquid-Cooled and Air-Cooled Systems Reduced Set-Up, Fast Time-to-Temperature

With the new ProHeat™ 35 induction heating system, joints can be rapidly and uniformly heated for preheat or stress relief with minimal setup and instruction time. This system induces heat electromagnetically rather than by using a heating element.

For more information click www.reddarc.com/IHS or call 1-866-733-3272 to speak to an induction-heating specialist.

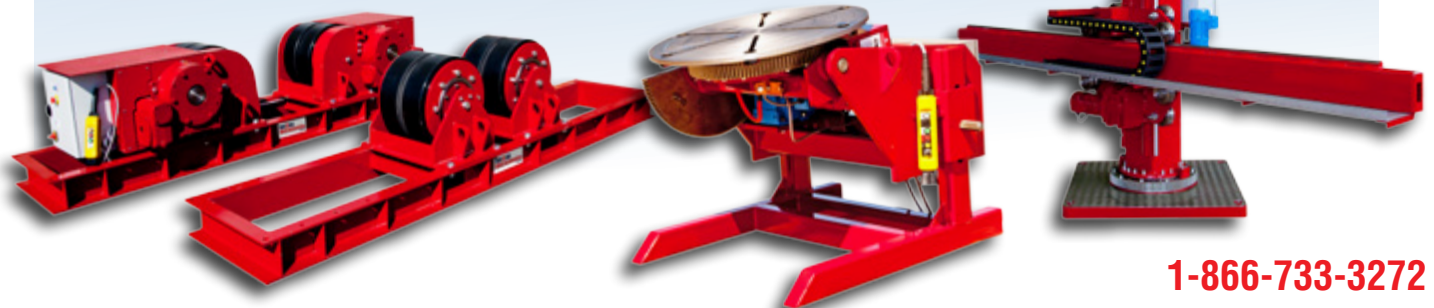

Portable Welding Fume Extractors

Various models are available with capacities up to 1,400 cfm. Rugged stainless-steel construction is ideally suited for shipyard work. Available with either disposable, re-usable, or HEPA filters.

Welding Positioners, Manipulators, Turning Rolls

Positioners Turning Roll Sets Welding Head Manipulators

Various models available with capacities up to 85,000 pounds
Vessel rotation up to 400 tons and 26 feet in diameter
Models range from 6 feet by 6 feet, up to 18 feet by 18 feet

Welding and Power
Solutions for Shipyards

Diesel Powered Electric Generators

We rent diesel-powered electric generators that can supply up to 350 kW (440 kVA) of temporary power for welding equipment, electric-power-distribution panels and other shipyard electric-power requirements.

Power Distribution Panels

- DP4X100** 400A 480V input, 4 - 100A 480V receptacles with GFCI breakers
- DP6X60** 400A 480V input, 6 - 60A receptacles with GFCI breakers
- SB80** Splitter box with 4 - 20 amp 120V duplex receptacles with GFCI breakers
- DP25** Step-down distribution panel with 6 - 20 amp 120V duplex receptacles and 2 - 30 amp 120/240V single outlet, twist-lock receptacles with GFCI breakers
- DP75** 480/600V 30 kVA step-down transformer with 10 - 20 amp 120V duplex receptacles with GFCI breakers and 2 - 50 amp 120/240V receptacles with GFCI breakers
- DP225** 225A 240/380/480/600V input, 8 - 60 amp 480/600V 3-phase receptacles with GFCI breakers
